RE: Ecology Comments on Draft B 100-NR-1 and 100-NR-2
Operable Unit Work Plans

Dear Mr. Wisness:

This purpose of this letter is to inform USDOE-RL of a 14-day delay in submittal of Ecology comments on the Draft B 100-NR-1 and 100-NR-2 Operable Unit Work Plans. The reasons for this delay include:

- o Late receipt of the USDOE-RL "redline" drafts of the 100-HR-3, 100-DR-1 and 100-HR-1 Work Plans on February 19. On a priority basis, we must continue to focus on the H and D Area plans. The presentation and much of the content in these work plans is applicable to the 100-N Area plans.
- o Continued discussions among USDOE-RL, WHC, Ecology, EPA and Golder Assoc. regarding Sections 1.0., 3.3., 5.0. and the Quality Assurance Project Plan (received February 24), for 100 Area work plans. Many of the same individuals involved in this effort are also responsible for preparing and responding to comments on the 100-N Area work plans.

Ecology comments will be submitted by March 16, 1992. In accordance with TPA document review cycles, USDOE-RL response to these comments should be received by Ecology no later than April 15, 1992.

Should you have comments on this matter, please contact me at (206) 438-7018. Thank you.

Sincerely,

Larry Goldstein
CERCLA Unit Supervisor
Nuclear and Mixed Waste Management
